

# ICS 480

6 Systems // 100+ Products // Retail and Manufacturing

## FEATURES & SPECIFICATIONS

-  **Inputs**  
30 High Speed Inputs  
32 Ethernet Meters/Scales †  
8 Analog Inputs  
2 Serial Scale Inputs

-  **Outputs**  
Up to 384 Ethernet Valves\*\*  
48 Standard Outputs  
16 High Current Outputs

-  **Loadout**  
6 Loadout Points per System

-  **Expansion Options<sup>†</sup>**  
64/96 Output Expansion Panel  
Unattended Loadout  
Tank Level Monitoring  
Start/Stop Panel

-  **Systems**  
6 Systems Max  
Systems May Run Simultaneously  
32 Products Can Be Recirculated  
Variable Pump Speed Control  
Ticket Recall and Printing\*

-  **Control Interfaces**  
Touch Screen Manual Controls  
Optional Remote Touch Screen  
Optional Tablet/Smart Device for Manual Controls

-  **Premix Skid**  
1 Premix Skid Per System Max  
3 Total Premix Skids  
Load Out to 1-2 System Lines

\* ICS ControlPro® required.

\*\* On supported equipment

† Ethernet connections require less conduit and install time.

(Actual product count depends on meter type & plumbing.)

# ControlPro

Liquid & Dry Fertilizer Facility Management Software

## SOFTWARE HIGHLIGHTS

### Liquid AND Dry Fertilizer

Manage all your agronomy facilities with the same software whether liquid or dry, retail or wholesale.

### Batches & Loads

Split or combine batches as needed for in-field time savings and accurate delivery.

### Inventory Management

Use transactions and/or sensors to manage inventory and monitor inventory across locations.

### Unattended Loadout

Service customers and/or other locations with 24/7 loadout.

### Subscription-Based Software

Stay competitive with the latest software innovations thanks to our PaaS model. Receive updates on the fly.

### Agronomy/ERP Integration

Run ICS ControlPro® standalone or interface with 24 different 3rd party software.

### Systems Control

Send ticket batches to one or more systems for production and loadout.

### Drivers & Equipment

Improve communication and audit trails with drivers and equipment dispatching tools.

### Billing & Customer Service

Increase billing and load accuracy while also improving communication with customers.

### Weights and Measures Approved

The only industry software NTEP Certified with NTEP Devices. NTEP CC: 23-053
